Türkiye Environmental and Cultural Sustainability Program was developed under the leadership of the Republic of Türkiye Ministry of Culture and Tourism

PROGRAM

About the Program

Türkiye, for the purpose of utilizing the supply resources of tourism including natural, cultural and social aspects by considering the balance of protection-utilization and developing and globally promoting these aspects without jeopardizing any of them, has been improving national sustainable tourism standards in cooperation with its domestic and international stakeholders. Türkiye Sustainable Tourism Industry Criteria (TR-I) have been built to ensure sustainable growth of the Turkish tourism industry and to develop a common understanding about Turkish tourism with the participation of all tourism stakeholders. TR-I was developed to be implemented by accommodation facilities and tour operators. In this respect, TR-I includes both criteria that comply with the social and cultural structure of Türkiye and globally recognized sustainable tourism criteria.

The process of developing the TR-I was designed to adhere to the criteria of the Global Sustainable Tourism Council (GSTC), the international body providing guidance for the development of sustainability standards for tourism. In this context, TR-I have adopted all GSTC criteria for Industry as they have been introduced by GSTC. TR-I will be revised every 3-5 years to comply with the updating period of the GSTC criteria. More details on revision plans and signing up to allow anyone interested to comment on future revisions are available at the website tga.gov.tr. This website also includes information about the criteria development process and its historical progress.

It is used for training and awareness raising, basis for policy making, assessment and evaluation, and certification for businesses and government agencies and other types of organizations.

Who is **GSTC**?

Consisting of 32 partners and established in 2007, GSTC is a coalition which was initiated by the Rainforest Alliance, the United Nations Environment Programme (UNEP), the United Nations Foundation (UN Foundation) and the United Nations.

To provide international accreditation for Sustainable Tourism Certification Bodies

A structure that shapes sustainable development policies

An independent and impartial, U.S. - registered non-profit organization

GSTC Criteria

- The highest standard of sustainable tourism in the world.
- Decades of work and experience around the world
- Applicable to all countries (small or large businesses and destinations/countryside, urban and natural areas)
- Takes into account a large number of directives and standards for sustainable tourism from every continent

What is Sustainable Hotel Certification?

The demand for sustainable practices is increasing.

As guests' concerns about the harmful effects of travel and tourism grow, certification offers a safe solution.

GSTC-accredited certificates are the primary preference.
